

Child and Adolescent Psychologists in Arizona

Compiled by: Elizabeth E. Ventura-Cook, PhD

Distributed by: Children's Issues Committee of the Arizona Psychological Association

Christina Lebovitz, PhD, Chair

Information for this directory was provided by individual psychologists who represent themselves as being licensed to practice psychology in the state of Arizona, and having specialty training in the area of child and adolescent psychology. No background checks or verification were conducted by the Children's Issues Committee or by the Arizona Psychological Association. Consumers are encouraged to inquire about specific qualifications for psychologists they choose to contact.

*The **Children's Issues Committee** of the Arizona Psychological Association developed this directory to make it easier for referral sources, including school counselors, physicians, and other mental health professionals to access our members and their services. It is a listing of Arizona psychologists who provide psychological intervention for infants, children, adolescents, couples, and families in a variety of settings, as well as clinicians who specialize in assessment. Additionally, a number of these psychologists work with adults. Although we believe that there are more psychologists in the state who render similar services, psychologists listed are those who expressed interest in this directory.*

Each of these clinicians has provided an overview of the scope of their practice, specialty areas in which they are skilled, as well as types of payments they accept. For your convenience, names are listed alphabetically as well as by geographic area
